***Allowable Subject Matter***

Claims 1-8,12-17 and 19-24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1-4,8, and 13-15 fails to teach the use of a structural member including a load-bearing member having a projection centrally located on an interior surface of one wall and an elongated insert having a channel to receive the centrally located projection such that both the projection and the channel flare outwardly.

Regarding claims 5-7 fails to teach the use of a structural member including a load-bearing member having a projection located on an outer surface of one wall and an elongated slat having a channel to receive the projection such that both the projection and the channel flare outwardly.

Regarding claims 16-17 and 19-24 fails to teach the use of a structural member including a load-bearing member having a projection located on an interior surface of one wall and an elongated insert having a channel to receive the projection such that both the projection and the channel flare outwardly in combination with a rectangular strut having a diagonal web.
